

REMARKS

In response to the Examiner's acknowledgement of patentable subject matter in claims 2-4 and 7-10, the Applicant has elected to incorporate the limitations of claim 2 into independent claim 1. Inasmuch as the remaining claims are dependent, this amendment also place them in condition for allowance.

In view of the present amendment to the claims, it is submitted that each of the claims now in the application define patentable subject matter not anticipated by the art of record and not obvious to one skilled in this field who is aware of the references of record. Reconsideration and allowance are respectively requested.

Respectfully submitted,
